

**THE UNIVERSITY OF TEXAS AT AUSTIN
SCHOOL OF SOCIAL WORK**

Course Number:	SW393T28	Instructor's name:	Cal Streeter
Unique Number:	61710	Office Number:	3.130G
Semester:	Fall 2017	Office Phone:	512.471.0543
Meeting	Tuesday, 5:30-8:30 pm,	Email:	cstreeter@utexas.edu
Time/Place:	Room 2.118		
Office Hours:	T-Th, 1:00 to 2:00 pm or by appointment		

PROGRAM EVALUATION

I. Course Description

Social work program evaluation involves the application of social research methodologies to the conceptualization, design, planning, administration, implementation, effectiveness, and utility of human services programs and policies. This course will introduce students to the different types of program evaluation, including formative evaluation (e.g. needs assessment, implementation assessment, process evaluation) and summative evaluation (e.g. impact assessment, outcomes assessment, and cost analysis). The course will cover experimental, quasi-experimental, and non-experimental study designs, including the strengths and limitations of each. Some review of relevant data analytic methods will be presented. The influence of the historical, cultural, and political context of evaluation research will be examined.

II. Course Objectives

By the end of the course the student will be able to:

1. Demonstrate knowledge of the various purposes of program evaluation.
2. Demonstrate knowledge of the history of program evaluation.
3. Demonstrate an understanding of the impact of the political context on evaluation research.
4. Demonstrate an understanding of the potential effects of the cultural context in which the program or policy takes place.
5. Demonstrate an understanding of the iterative process of program evaluation and the participatory role of the stakeholders.
6. Demonstrate knowledge of basic models of program evaluation (i.e. experimental, quasi-experimental, and non-experimental study designs).
7. Demonstrate knowledge of the threats to validity associated with each study design.
8. Demonstrate knowledge of the role of qualitative research methods in program evaluation.
9. Demonstrate the ability to conceptualize evaluation questions and to develop appropriate objectives and valid indicators (measures) to answer the evaluation questions.
10. Demonstrate an understanding of the sources of program evaluation data depending on the purpose of the evaluation.
11. Demonstrate a working knowledge of general linear model methods for the analysis of evaluation outcomes.
12. Apply knowledge of program evaluation models and principles by designing an evaluation of a program.

III. Teaching Methods

Course content is covered through reading, listening, thinking, and discussing issues related to effective program evaluation. Each class session will be devoted to a discussion of assigned readings and participation in group activities designed to enhance student learning. Students are expected to complete assigned readings before class, to actively participate in class discussions, and to be engaged with group activities.

IV. Required and Recommended Texts, and Materials

Wholey, J. S., Hatry, H. P., Newcomer, K. E. (Eds.) *Handbook of Practical Program Evaluation, Third Edition*. San Francisco, CA: Jossey-Bass, 2010. **Available online.**

The text and all assigned reading and related course material will be available on the course Canvas page. Some readings are URLs that will take you to an online webpage. In such cases make sure you read all content under the navigation tabs.

The assigned readings are considered the minimum requirements for the course. It is expected that students will be reading additional material that will relate to the content of this class. When that happens, students are encouraged to share that content with the class through discussion and examples.

Statistics review: A basic understanding of statistical concepts will be required for this class. Students are not required to use any specific text for this, though the instructor will offer recommendations if needed. Additionally, there are many online stats texts, study aids, simulations out there. The following are among the more useful that I've found:

Rice: <http://onlinestatbook.com/2/>

UCLA: <http://wiki.stat.ucla.edu/socr/index.php/EBook>

StatSoft: <http://www.statsoft.com/Textbook/Elementary---Statistics---Concepts/button/1>

Websites relevant to this course

V. Course Requirements

Course requirements consist of class attendance and participation, completion of the CITI Human Subjects online training, five short quizzes, and a major class project. Regular class attendance is expected and students should come to class prepared to actively participate in class discussions. Course requirements, due dates, and their contribution to the final grade are summarized below.

Assignment	% of Final Grade	Due Date
Class attendance and participation	10%	
CITI Human Subjects Training	10%	September 19, 2017
Quizzes (5 quizzes @ 5 points each)	25%	
Class Project		
Group grade for written report	30%	December 5, 2017
Group grade for presentation	15%	
Individual grade based on contribution	10%	
Total Project Grade	55%	

Grades for this course will be assigned using the following +/- scale.

94 and above = A	74.0 to 76.999 = C
90.0 to 93.999 = A-	70.0 to 73.999 = C-
87.0 to 89.999 = B+	67.0 to 69.999 = D+
84.0 to 86.999 = B	64.0 to 66.999 = D
80.0 to 83.999 = B-	60.0 to 63.999 = D-
77.0 to 79.999 = C+	Below 60 = F

Each of the course requirements is described in detail below. Sometimes students have questions about the assignments. If this is the case, please feel free to ask for clarification at any time during the course. Students may ask for clarification on an individual basis or they can ask questions at the beginning of each class session.

Class attendance and participation. Students are expected to attend all classes and to arrive on time, do assigned readings before the class for which they are assigned, to compile questions regarding the material for class discussion, and to actively participate throughout the class. Students are permitted **one** excused absence in the event of unexpected emergencies, illness, medical appointments, university-sanctioned events, or religious holidays. To have an excused absence, students must email the instructor before the class they will miss. Medical documentation will be required to avoid losing grade points for more than one absence. Missing more than one class will result in a 2% per class deduction from the student's final grade. Please inform the professor if you will be late or not attending class.

CITI Human Subjects Training. Most social science research uses information about human subjects. Due to the potential for abuses in the research context, federal and university rules govern how research on human subjects can be conducted. All University research involving human subjects must be approved by an Institutional Review Board (IRB) before starting to ensure that the study minimizes risk to human subjects (beneficence), ensures all subjects consent to participate with full information about the project and its risks (autonomy), and promotes equitable conduct of research (justice).

Students must complete the online training Social and Behavioral Conduct of Research Course 1 through the Collaborative Institutional Training Initiative (CITI). After completing the training, print a copy of the completion certificate and submit it via the class Canvas page. If you have already completed the training and your training is still valid, go ahead and submit your certificate.

Submission is due prior to class on **September 19, 2017**. Students can access information on completing the human subjects training course (CITI) at:

<https://research.utexas.edu/ors/human-subjects/training/instructions-for-registering-for-human-subjects-research-training/>.

Quizzes. Rather than have mid-term and final exams, short quizzes will be given throughout the semester. The quizzes will be designed to help students and the professor assess understanding of class content. Quizzes will cover content assigned for that week and will be given at the professor's discretion. A total of six quizzes will be given throughout the semester and the lowest grade will be dropped. Each of the remaining quizzes will be worth 5 points.

Class Project. As social workers, much of your professional work will involve working with task groups (boards, task forces, committees, etc.). In addition to helping you learn about program evaluation, this project is designed to help you gain experience and develop critical skills needed for effective task group work. As "**project teams**" I hold the entire team responsible for the successful completion of the class project. That means the team should address issues regarding quality standards for the project, timely task completion, workload, etc. If and when problems arise in the team, the team should work as a unit to try to develop appropriate solutions. Of course, as professor, I will be available to consult with the team as needed.

This project requires that we split the class into four project teams with each team being responsible for a program evaluation for the Literacy Coalition of Central Texas (LCCT). By the end of the course, each team will produce a high quality written report that is professionally done and showcases the work the team completed during the course. A more detailed description will be provided during the first class.

In addition to the written report, each team will present their program evaluation findings during class on **December 5, 2017**. The presentation should articulate the purpose of the project, define the methodology used to complete the evaluation, and report the major findings and recommendations that came from your work. It should also provide a discussion of the limitations you encountered as you worked on the project and your critical assessment of the extent to which your team feels it was successful in meeting the goals for the project. As with the written report, the presentation should be carefully prepared and professionally done. Staff from LCCT will be invited to attend the presentations.

The final report is **due on Tuesday, December 5, 2017**. The assignment is worth 55% of your final grade. Forty-five percent of the final grade will be a group grade based on the collective effort and 10% will be an individual grade. The team grade will be divided into two parts, 15% for the class presentation and 30% for the written report.

The individual portion of the grade (10%) will be determined from three sources of information. First, I will meet with each team on a regular basis and will observe individual participation in the project. Second, each member of the team will prepare a brief written statement outlining their contributions to the project (it may be helpful for each member of the team to maintain a log to document their effort throughout the semester). Third, at the end of the semester each member of the team will complete an evaluation of themselves and for each of the other members of the team. Because class time will be devoted to the project, class attendance is required.

NOTE: As the professor, I do reserve the right to award differentially weighted grades on the team project. This will normally occur when a member of the team fails to actively participate in the

project, consistently misses deadline for assigned tasks, or produces work that is below the quality standards expected for the project. In other words, if a student's individual performance is consistently below par so that it jeopardizes the grades of the other members of the team, I will down grade that student.

VI. University and School Notices and Policies

Conditional Admission. Students who were admitted into the MSSW program on a conditional basis are not able to take an incomplete for this course if the conditions for admission are still in place.

The University of Texas Honor Code. The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.

Classroom civility. A course brings together diverse individuals with various backgrounds. Students are influenced and shaped by such factors as ethnicity, gender, sex, physical abilities, religious and political beliefs, national origins, and sexual orientations, among others. Social Work deals with complex and controversial issues. These issues may be challenging and uncomfortable, and it would be impossible to offer a substantive classroom experience that did not include potentially difficult conversations relating to challenging issues. In this environment we should be exposed to diverse ideas and opinions, and sometime we will not agree with the ideas expressed by others. However, I do expect students to engage one another with respect and professionalism.

Unanticipated distress. Students may experience unexpected and/or distressing reactions to course readings, videos, conversations, and assignments. If so, students are encouraged to inform the instructor. The instructor can be responsive and supportive regarding students' participation in course assignments and activities, but students are responsible for communicating clearly what kind of support is desired. If counseling is needed, students can contact a service provider of their choosing, including the UT Counseling Center at 512-471-3515 or online at www.utexas.edu/student/cmhc/.

Policy on Social Media and Professional Communication. Public social networks are not private. Even when open only to approved or invited members, users cannot be certain that privacy will exist among the general membership of sites. If social work students choose to participate in such forums, please assume that anything posted can be seen, read, and critiqued. What is said, posted, linked to, commented on, uploaded, subscribed to, etc., can be accessed and archived, posing potential harm to professional reputations and prospective careers.

Social work students who use social media (i.e. Facebook, Twitter, etc.) and other forms of electronic communication (i.e. blogs, etc.) must be mindful of how their communication may be perceived by clients, colleagues, faculty, and others. Social work students are expected to make every effort to minimize material which could be considered inappropriate for a professional social worker in training. Because of this, social work students are advised to manage security settings at their most private levels and avoid posting information/photos or using any language that could jeopardize their professional image. Students are asked to consider the amount of personal information posted on these sites and are obliged to block any client access to involvement in the students' social networks. Client material should not be referred to in any form of electronic media, including **any** information that might lead to the identification of a client or compromise client confidentiality in **any** way. Additionally, students must critically evaluate any material that is posted

regarding community agencies and professional relationships, as certain material could violate the standards set by the School of Social Work, the Texas Code of Conduct for Social Workers, and/or the NASW Code of Ethics.

Social work students should consider that they will be representing professional social work practice as well as the University of Texas at Austin School of Social Work program while in the classroom, the university community, and the broader area communities.

Policy on Scholastic Dishonesty. Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on scholastic dishonesty will be strictly enforced. For further information, the student may refer to the Web Site of the Student Judicial Services, Office of the Dean of Students (<http://deanofstudents.utexas.edu/sjs/>).

Use of Class Materials. The materials used in this class, including, but not limited to, exams, quizzes, and homework assignments are copyright protected works. Any unauthorized copying of the class materials is a violation of federal law and may result in disciplinary actions being taken against the student. Additionally, the sharing of class materials without the specific, express approval of the instructor may be a violation of the University's Student Honor Code and an act of academic dishonesty, which could result in further disciplinary action. This includes, among other things, uploading class materials to websites for the purpose of sharing those materials with other current or future students.

Documented Disability Statement. Any student who requires special accommodations must obtain a letter that documents the disability from the Services for Students with Disabilities area of the Division of Diversity and Community Engagement (471- 6259 voice or 471-4641 TTY for users who are deaf or hard of hearing). Present the letter to the professor at the beginning of the semester so that needed accommodations can be discussed. The student should remind the professor of any testing accommodations no later than five business days before an exam. For more information, visit <http://ddce.utexas.edu/disability>.

Religious Holidays. By UT Austin policy, students must notify the professor of a pending absence at least fourteen days prior to the date of observance of a religious holy day. If the student must miss a class, an examination, a work assignment, or a project in order to observe a religious holy day, the professor will give the student an opportunity to complete the missed work within a reasonable time after the absence.

Title IX Reporting. In accordance with Title IX of the Education Amendments of 1972, the University of Texas at Austin is committed to maintaining a learning environment that is free from discriminatory conduct based on gender. All faculty, instructors, and staff who supervise students are required to relay student reports of alleged sex discrimination, sexual harassment, including sexual violence or sexual misconduct, experienced by a student to the University Title IX office and an assistant or associate dean of the school. Further information including student resources related to Title IX may be found at <http://titleix.utexas.edu/>.

Classroom Confidentiality. Information shared in class about agencies, clients, and personal matters is considered confidential per the NASW Code of Ethics on educational supervision and is protected by FERPA regulations as well. Discussions with individuals outside of the educational context are not permitted. Violations of confidentiality could result in actions taken according to

the policies and procedure for review of academic performance located in sections 3.0, 3.1, and 3.2 of the Standards for Social Work Education.

Use of email for Official Correspondence to Students. Email is recognized as an official mode of university correspondence; therefore, students are responsible for reading their email for university and course-related information and announcements. Students are responsible to keep the university informed about changes to their e-mail address. Students should check their e-mail regularly and frequently—daily, but at minimum twice a week—to stay current with university-related communications, some of which may be time-sensitive. Students can find UT Austin’s policies and instructions for updating their e-mail address at <http://www.utexas.edu/its/policies/emailnotify.php>.

Safety. As part of professional social work education, students may have assignments that involve working in agency settings and/or the community. As such, these assignments may present some risks. Sound choices and caution may lower risks inherent to the profession. It is the student's responsibility to be aware of and adhere to policies and practices related to agency and/or community safety. Students should notify the professor regarding any safety concerns.

Behavioral Concerns Advice Line (BCAL). If students are worried about someone who is acting differently, they may use the Behavior Concerns Advice Line to discuss by phone their concerns about another individual’s behavior. This service is provided through a partnership among the Office of the Dean of Students, the Counseling and Mental Health Center (CMHC), the Employee Assistance Program (EAP), and The University of Texas Police Department (UTPD). Call 512-232-5050 or visit <http://www.utexas.edu/safety/bcal>.

Emergency Evacuation Policy. Occupants of buildings on the UT Austin campus are required to evacuate and assemble outside when a fire alarm is activated or an announcement is made. Please be aware of the following policies regarding evacuation:

- Familiarize yourself with all exit doors of the classroom and the building. Remember that the nearest exit door may not be the one you used when you entered the building.
- If you require assistance to evacuate, inform the professor in writing during the first week of class.
- In the event of an evacuation, follow the professor’s instructions.
- Do not re-enter a building unless you are given instructions by the Austin Fire Department, the UT Austin Police Department, or the Fire Prevention Services office.

VII. Course Policies and Notices

Canvas: The instructor uses Canvas as the primary means of managing course materials. All course materials will be posted on the course’s site. The site may also be used to communicate and collaborate online, to post grades, to give online quizzes or surveys. Students are responsible for checking this site regularly for class announcements and for new postings. Support in using Canvas can be obtained from the ITS Help Desk by calling 475-9400 between 8AM-6PM on Monday through Friday.

Late Assignment Policies: Except in the case of extreme emergencies, and then only with prior permission from the professor, late assignments will not be accepted without penalty. Students will lose 3 points for each day that an assignment is late. If the due date is a problem, then the student

must contact the professor and negotiate another due date at least **48 hours PRIOR** to the date specified in the course syllabus.

Incompletes: Students are expected to complete all course work by the last day of class and to complete all assignments by the dates due. Only in emergency situations will an incomplete grade be given for a course and only when, prior to the emergency, the student has been in attendance and has done satisfactory work. If an incomplete grade should be assigned, there will be a written agreement with the instructor about when and how the work will be completed.

Computer and Other Electronic Device Use Policy: Students are expected to use laptops and handheld computers in class for class related purposes only. To engage in other types of computer use and/or electronics use (e.g., accepting or making phone calls, texting, surfing the net, etc.) is unprofessional and disruptive to the course. Thus, students who violate this policy may be asked to leave the classroom.

Course and Instructor Evaluations: At the end of the semester, the standard Course Instructor Survey (CIS) provided by the University of Texas at Austin will be used to evaluate the course. The CIS offers provides a systematic, campus--- wide method of evaluating courses and instructors. I hope that every student will complete the CIS.

VII. Course Schedule

The course schedule below identifies reading assignments for each class session. All readings are available online in the course Canvas page. As we go through the semester, I may add reading to this list. When I do so I will notify you either in class or via email. All reading assignments should be completed prior to the class for which they are assigned.

Date	Description/Readings
Class 1 9/5/17	Introduction and course overview Create project teams
Class 2 9/12/17	Evaluation Planning and Design Readings: Ch. 1: Planning and Designing Useful Evaluations (Text) Ch. 2: Analyzing and Engaging Stakeholders (Text) Ch. 3: Using Logic Models (Text) Von Hippel & Bradburt: The effects of school physical education grants on obesity, fitness, and academic achievement Von Hippel: Lawmakers should use evidence-based policy for decisions
Class 3 9/19/17	Ethical issues in program evaluation CITI Human Subjects Training is due before class Readings: What is Ethics in Research and Why is it Important? The Research Ethics Guidebook. What might be the ethical issues and risks that arise in my research? You Got a Problem With That?

<p>Class 4 9/26/17</p>	<p>Process and Implementation Evaluation Readings: Ch. 5: Performance Measurement: Monitoring Program Outcomes (Text) Developing Process Evaluation Questions Using Process Evaluation to Monitor Program Implementation Developing a Process Evaluation Plan: A How-To Guide Implementation Fidelity in Community-Based Intervention</p>
<p>Class 5 10/3/17</p>	<p>Measurement and Data Collection: Qualitative Data Guest Lecturer: Dr. Angela Nonaka, Assistant Professor, School of Social Work Readings: Ch. 16: Conducting Semi-structured Interviews (Text) Ch. 17: Focus Group Interviewing (Text) Ch. 19: Qualitative Data Analysis (Text) Optional: Ch. 13: Using Trained Observer Ratings (Text) Ch. 14: Collecting Data in the Field (Text) Ch. 18: Using Stories in Evaluation (Text)</p>
<p>Class 6 10/10/17</p>	<p>Outcome and Impact Evaluations: Design, Control, Sampling, Internal and External Validity Readings: Ch. 6: Comparison Group Designs (Text) Ch. 7: Randomized Controlled Trials and Nonrandomized Designs (Text) Ch. 9: Recruitment and Retention of Study Participants (Text)</p>
<p>Class 7 10/17/17</p>	<p>Outcome and Impact Evaluations: Measurement and Data Collection: Using Standardized Instruments Readings: Levels of Measurement Validity and reliability of measurement instruments used in research Scale Reliability and Validity Composite Rating Scales Finding measurement tools Research Instruments: Surveys, Questionnaires, and other measurement tools</p>
<p>Class 8 10/24/17</p>	<p>Outcome and Impact Evaluations: Lessons from the field Guest Lecturer: Dr. Kirk von Sternberg, Associate Professor, School of Social Work</p>

<p>Class 9 10/31/17</p>	<p>Measurement and Data Collection: Surveys Methods Guest Lecturer: Dr. Noel Landuyt, Director, Institute for Organizational Excellence Readings: Ch. 12: Using Surveys (Text) Ch. 15: Using the Internet (Text) LBB Instructions for Preparing and Submitting Agency Strategic Plans, FY 2015-2019 (in course module) How an Accounting Firm Convinced Its Employees They Could Change the World (in class module) Rethinking Work (in class module) Optional: Ch. 11: Using Agency Records (Text)</p>
<p>Class 10 11/7/17</p>	<p>Measurement and Data Collection: Social Network Analysis and Concept Mapping Readings: An Introduction to Social Network Analysis Exploring and Understanding Relationships Rural Networks: Using Social Network Analysis to Understand Communities An Introduction to Concept Mapping for Planning and Evaluation Concept Mapping: An Approach for Evaluating a Public Alternative School Austin Classical Guitar Society Program Evaluation Report</p>
<p>Class 11 11/14/17</p>	<p>Organizing and Presenting Data: Descriptive statistics Readings: Ch. 20: Using Statistics in Evaluation (Text) Ch. 3: Frequency Distributions (in course module) Ch. 4: Measures of Central Tendency and Variability (in course module) Ch. 6: Correlation (in course module) Excel Easy Analysis ToolPak Tutorial</p>
<p>Class 12 11/21/17</p>	<p>Organizing and Presenting Data: Making inferences from the data Readings: Ch. 22: Meta-Analysis, Systematic Reviews, and Evaluation Synthesis (Text) Ch. 8: Introduction to Hypothesis Testing (in course module) Excel Easy Analysis ToolPak Tutorial Optional: Ch. 21: Cost Effectiveness and Cost-Benefit Analysis (Text)</p>

<p>Class 13 11/28/17</p>	<p>Avoiding Evaluation Pitfalls Preparing the evaluation report and disseminating the findings PROJECT WORK DAY Readings: Ch. 23: Pitfalls in Evaluation (Text) Ch. 24: Providing Recommendations, Suggestions, and Options for Improvement (Text) Ch. 25: Writing for Impact (Text) Ch. 26: Contracting for Evaluation Products and Services (Text)Ch. 28: Evaluation Challenges, Issues, and Trends (Text)</p>
<p>Class 14 12/5/17</p>	<p>Final Class Project Presentations</p>
