

**THE UNIVERSITY OF TEXAS AT AUSTIN**

**SCHOOL OF SOCIAL WORK**

**Course Number:** SW360K/SW393R23  
**Unique Number:** 61750/62025  
**Semester:** Spring 2015  
**Meeting Time:** Mondays 5:30-8:30pm  
**Meeting Place:** SSW 1.212  
**Office Number:** SSW1.218G  
  
**Office Phone:** 471-0520  
**Office Hours:** By appointment

**Instructor's name:**

Clay Shorkey,  
LCSW, PhD  
Josleen and  
Frances Lockhart  
Professor of  
Direct Practice in  
Social Work

**TREATMENT OF SUBSTANCE USE DISORDERS**

I. Standardized Course Description

The course is designed to provide a basic understanding of contemporary treatment methods used in work with a diverse range of clients recovering from alcohol and/or drug addiction. Emphasis will be placed on integrating the use of Mindfulness-Based Therapy, Rational Emotive Therapy, and Behavior Therapy with the 12 Step Program of Recovery/ Minnesota Model, Faith-based, Pharmacological, the Therapeutic Community Model and the Drug Court Model.

II. Pre and/or Co-Requisites

Students who plan to specialize in chemical dependence and wish to obtain state licensing as a chemical dependence counselor (LCDC), should take a minimum of three (3) courses in this area. It is suggested that the sequence include: “Dynamics of Substance Use Disorders,” “Treatment of Substance Use Disorders” and one or more from “Co-existing Psychiatric and Substance Use Disorders”, “Adolescent Substance Use Disorders Prevention/ Intervention”, “Relapse and Recovery” or “Women and Substance Use Disorders.”

III. Standardized Course Objectives

By the end of the semester,

1. The student should be able to work with a broad range of clients with understanding, affirmation, and respect for the positive value of diversity.
2. The student should be familiar with basic theoretical concepts and treatment techniques of selected contemporary counseling theories, adjunctive methods and medically supervised programs for treatment of clients with substance use disorders.

3. The student should be able to describe the concepts, procedures and preliminary outcome data related to six major models for treatment of substance use disorders: Pharmacological, 12 Step, Minnesota, Faith-based, Therapeutic Community and Drug Court.
4. The student should be able to describe basic concepts, propositions, treatment techniques, and procedures derived from major psychosocial theories including: Mindfulness, Rational Emotive, and Behavioral.
5. The student should be able to integrate counseling techniques derived from psychosocial theories covered in the course with the Pharmacological, 12 Step, Minnesota, the Faith-based, Therapeutic Community, and Drug Court models.

#### IV. Teaching Methods

Teaching methods will include lecture, group discussion, group exercises, audio-visual materials, field trips, and guest lecturers.

#### V. Required Texts, and Materials

##### Required:

- Reading package University Copy Center in the School of Social Work (Telephone 471-8281).
- The Anonymous Press Mini Edition of Alcoholics Anonymous (2010) The Anonymous Press: Malo, WA (this little book can be purchased in class for 1\$)

##### Recommended:

## VI. Field Trips

Field trips are scheduled during the regular class times unless community agencies schedule does not fit the class time. Students will be made aware of these changes at the first class session. In the event that the alternate time of the field trip conflicts with another class or commitment, please make an appointment with professor to discuss an alternate assignment.

## VII. Class Policies

### **Attendance**

Class attendance is required to complete all of the assignments. Students may miss no more than two (2) class sessions. Students who fail to attend class on a regular basis (missing more than 2 classes without a valid excuse, medical documentation) will receive one course grade lower than their final grade when points are totaled. Students who miss more than three unexcused classes may receive two grades lower than their final grade. Students who leave at the mid-point break of the class will be counted as attending  $\frac{1}{2}$  of the only class. Students who are one or two points below the cut-off for a letter grade may receive the higher grade at the end of the semester based on class participation.

### **Late Assignments**

Assignments are due on the dates indicated in the course syllabus. Late assignments will not be accepted without penalty. One point will be deducted from the assignment for each day past the due date.

### **Student Concerns**

Students who would like to discuss a concern with either the professor or the teaching assistant related to the class should make an appointment at a time mutually convenient.

### **Grading:**

<i><u>Assignment</u></i>	<i><u>Undergrad</u></i>	<i><u>Graduate</u></i>
Mid-term	50	50
Final	40	40
Attendance	15	15
Graduate Assignment	--	25
Journals	50	50
12 – Step Reflection Paper	45	45
<b>Total possible points</b>	<b>200</b>	<b>225</b>

<i><b>Grading Scale</b></i>	
<i><b>Undergraduate</b></i>	<i><b>Graduate</b></i>
188-200 (94%-100%) = A	211-225 (94%-100%) = A
180-187.999 (90%- 93%) = A-	202-210 (90%-93%) = A-
174-179.999 (87%- 89%) = B+	195-201 (87%-89%) = B+

168-173.999 (84%- 86%) = B	189-194.999 (84%-85%) = B
160-167.999 (80%- 83%) = B-	180-188.999 (80%-83%) = B-
154-159.999 (77%-79%) = C+	173-179.999 (77%-79%) = C+
148-153.999 (74%-76%) = C	166-172.999 (74%-76%) = C

120-127.999 (60%-63%) = D-	135-143.999 (60%-63%) = D-
119 & below (59% & below) = F	134 & below (59%&below) = F

**Grading Scale:** (Grades are rounded up to the next number at .5). Grading of all written assignments will take into account the quality of the writing as well as the content. The current APA format should be followed. Written material should be carefully proofread corrected for errors in punctuation, typographical errors, and spelling errors. Good writing requires a reiterative process that must be followed if quality is to improve. It is a good idea to read your paper several times and if possible have someone else read it.

Students requesting an incomplete for medical problems or family emergencies must fill out the required form available in the Student Service office and discuss their request with the instructor.

## University Policies

**SCHOOL OF SOCIAL WORK POLICY.** Read the School of Social Work Safety statement: As part of professional social work education, students may have assignments that involve being in agency settings and/or the community. As such, these assignments may present some risks. Sound choices and caution may lower risks inherent to the profession. It is the student’s responsibility to be aware of and adhere to policies and practices related to agency and/or community safety.

Students should notify instructors regarding any safety concerns. Information shared in class about agencies and clients is considered to be covered by the NASW Code of Ethics regarding the sharing of information for supervisory purposes. Agencies are aware that information is shared in class for this purpose. However, discussion outside of class with individuals not in this class or with other class members in settings where you cannot assure that no one else may overhear the conversation is considered a breach of confidentiality and will result in recommendation against admission to the BSW program.

**THE UNIVERSITY OF TEXAS HONOR CODE.** The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.

**PROFESSIONAL CONDUCT IN CLASS.** The professor expects students to act as professionals in class. This means students should arrive on time for class, be prepared to participate in the class discussion, and show respect for one another’s opinions. We will not, nor should we, always agree with one another. In this environment we should be exposed to diverse ideas and opinions, and sometime we will not agree with the ideas expressed by others. However, the professor does

require that students engage one another with respect and professionalism.

**CLASSROOM CIVILITY.** A course brings together a group of diverse individuals with various backgrounds. Students are influenced and shaped by such factors as ethnicity, gender, sex, physical abilities, religious and political beliefs, national origins, and sexual orientations, among others. We expect to learn from each other in an atmosphere of positive engagement and mutual respect. Social Work deals with complex and controversial issues. These issues may be challenging and uncomfortable, and it would be impossible to offer a substantive classroom experience that did not include potentially difficult conversations relating to challenging issues.

**UNANTICIPATED DISTRESS.** Students may experience unexpected and/or distressing reactions to course readings, videos, conversations, and assignments. If so, students are encouraged to inform the instructor. The instructor can be responsive and supportive regarding students' participation in course assignments and activities, but students are responsible for communicating clearly what kind of support is desired. If counseling is needed, students can contact a service provider of their choosing, including the UT Counseling Center at [512-471-3515](tel:512-471-3515) or online at [www.utexas.edu/student/cmhc/](http://www.utexas.edu/student/cmhc/).

**POLICY ON SOCIAL MEDIA AND PROFESSIONAL COMMUNICATION.** Public social networks are not private. Even when open only to approved or invited members, users cannot be certain that privacy will exist among the general membership of sites. If social work students choose to participate in such forums, please assume that anything posted can be seen, read, and critiqued. What is said, posted, linked to, commented on, uploaded, subscribed to, etc., can be accessed and archived, posing potential harm to professional reputations and prospective careers.

Social work students who use social media (i.e. Facebook, Twitter, etc.) and other forms of electronic communication (i.e. blogs, etc.) must be mindful of how their communication may be perceived by clients, colleagues, faculty, and others. Social work students are expected to make every effort to minimize material which could be considered inappropriate for a professional social worker in training. Because of this, social work students are advised to manage security settings at their most private levels and avoid posting information/photos or using any language that could jeopardize their professional image. Students are asked to consider the amount of personal information posted on these sites and are obliged to block any client access to involvement in the students' social networks. Client material should not be referred to in any form of electronic media, including *any* information that might lead to the identification of a client or compromise client confidentiality in *any* way. Additionally, students must critically evaluate any material that is posted regarding community agencies and professional relationships, as certain material could violate the standards set by the School of Social Work, the Texas Code of Conduct for Social Workers, and/or the NASW Code of Ethics.

Social work students should consider that they will be representing professional social work practice as well as the University of Texas at Austin School of Social Work program while in the classroom, the university community, and the broader area communities.

**POLICY ON SCHOLASTIC DISHONESTY.** Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on scholastic dishonesty will be strictly

enforced. For further information, the student may refer to the Web Site of the Student Judicial Services, Office of the Dean of Students (<http://deanofstudents.utexas.edu/sjs/>).

**USE OF CLASS MATERIALS.** The materials used in this class, including, but not limited to, exams, quizzes, and homework assignments are copyright protected works. Any unauthorized copying of the class materials is a violation of federal law and may result in disciplinary actions being taken against the student. Additionally, the sharing of class materials without the specific, express approval of the instructor may be a violation of the University's Student Honor Code and an act of academic dishonesty, which could result in further disciplinary action. This includes, among other things, uploading class materials to websites for the purpose of sharing those materials with other current or future students.

**DOCUMENTED DISABILITY STATEMENT.** Any student who requires special accommodations must obtain a letter that documents the disability from the Services for Students with Disabilities area of the Division of Diversity and Community Engagement (471- 6259 voice or 471-4641 TTY for users who are deaf or hard of hearing). Present the letter to the professor at the beginning of the semester so that needed accommodations can be discussed. The student should remind the professor of any testing accommodations no later than five business days before an exam. For more information, visit <http://www.utexas.edu/diversity/ddce/ssd/>.

**RELIGIOUS HOLIDAYS.** By UT Austin policy, students must notify the professor of a pending absence at least fourteen days prior to the date of observance of a religious holy day. If the student must miss a class, an examination, a work assignment, or a project in order to observe a religious holy day, the professor will give the student an opportunity to complete the missed work within a reasonable time after the absence.

**USE OF E-MAIL FOR OFFICIAL CORRESPONDENCE TO STUDENTS.** Email is recognized as an official mode of university correspondence; therefore, students are responsible for reading their email for university and course-related information and announcements. Students are responsible to keep the university informed about changes to their e-mail address. Students should check their e-mail regularly and frequently—daily, but at minimum twice a week—to stay current with university-related communications, some of which may be time- sensitive. Students can find UT Austin’s policies and instructions for updating their e-mail address at <http://www.utexas.edu/its/policies/emailnotify.php>.

**SAFETY.** As part of professional social work education, students may have assignments that involve working in agency settings and/or the community. As such, these assignments may present some risks. Sound choices and caution may lower risks inherent to the profession. It is the student's responsibility to be aware of and adhere to policies and practices related to agency and/or community safety. Students should notify the professor regarding any safety concerns.

**BEHAVIOR CONCERNS ADVICE LINE (BCAL).** If students are worried about someone who is acting differently, they may use the Behavior Concerns Advice Line to discuss by phone their concerns about another individual’s behavior. This service is provided through a partnership among the Office of the Dean of Students, the Counseling and Mental Health Center (CMHC), the Employee Assistance Program (EAP), and The University of Texas Police Department (UTPD). Call [512-232-5050](tel:512-232-5050) or visit <http://www.utexas.edu/safety/bcal>.

**EMERGENCY EVACUATION POLICY.** Occupants of buildings on the UT Austin campus are required to evacuate and assemble outside when a fire alarm is activated or an announcement is made. Please be aware of the following policies regarding evacuation:

- Familiarize yourself with all exit doors of the classroom and the building. Remember that the nearest exit door may not be the one you used when you entered the building.
- If you require assistance to evacuate, inform the professor in writing during the first week of class.
- In the event of an evacuation, follow the professor’s instructions.
- Do not re-enter a building unless you are given instructions by the Austin Fire Department, the UT Austin Police Department, or the Fire Prevention Services office.

## Course Specific Information:

### Assignments

How grades are determined:

<u>Assignment</u>	<u>Due Date</u>	<u>Undergrad</u>	<u>Graduate</u>
Mid-term	April 20	50	50
Final	May 4	40	40
Attendance	Ongoing	15	15
Graduate Assignment	April 6	--	25
Journals	Ongoing	50	50
12 – Step Reflection Paper	April 13	45	45
<b>Total possible points</b>		<b>200</b>	<b>225</b>

#### ▪ Readings

Reading assignments should be completed prior to class and will provide the basis for discussion. Students are encouraged to ask questions and make comments during lectures. Student's questions and comments provide the instructor an important assessment tool for whether or not readings are being completed outside of class.

#### ▪ Mid-Semester and Final Quiz

The quizzes will test students’ knowledge of the therapeutic approaches covered in the course and students ability to critically analyze and compare these models. The test formats will include short answer questions and essay questions. The mid-semester quiz will be a take-home quiz whereas the second quiz will be an open book quiz that takes place in the classroom. Quizzes are scheduled at the times indicated on the course outline.

**Mid-Term Quiz:** (50 pts) You will be given a take home mid-term quiz on **February 16**, it is due **April 20**. Please answer questions in list form or 2-3 sentences. You do not need to retype the questions, as long as your answer numbers correctly correspond to the questions on the quiz.

**Final:** (40pts) There will be final quiz given in class on **May 4**. Be sure to bring your handouts you have been given in class throughout the semester.

## ■ **ATTENDANCE**

0-1 Missed class = 15 points

1 ½ - 2 missed classes = 10 points

**\*\*MORE THAN 2 MISSED CLASSES:** 0 points and possible grade reduction  
(See Attendance Policy for more details)

## ■ **Graduate Assignment**

You will be given a separate assignment sheet related to this assignment on **February 2** in class; assignment due **April 6** (paper + presentation).

## ■ **Journals**

(5 journals x 10 pts each = 50 pts total) Related to field visits/ guest speakers

Each Journal entry should be posted to Blackboard by *Friday each week at 5pm* to be given full credit. There are 11 possible classes you can write a journal entry for, and you will need to complete 5 entries worth 10 points each. Full points will be awarded based on length and depth of content.

You have the opportunity to write a journal entry for every class **except** three: The first class on January 26, the class on Graduate presentations on April 6, or the last class on May 4.

### **Journal entries should cover the following questions:**

- Briefly describe the event – where did you go/ who did you hear, key components of the event. This is to show your attentiveness and attendance to the field visit/ lecture.
- Briefly describe the treatment modality being discussed/viewed for the week. In what ways did you see this displayed on your field visit; how was it talked about by the guest lecturer? Does this match with the **readings** you did for the week?
- What was the experience like for you?
- Did you agree or disagree with any element of the field visit/guest speaker's presentation?
- How do you see yourself using what you have learned from this field visit when working with clients? If you do not, why not?
- Please provide thorough rationale for points of agreement or disagreement.
- Are there clients you can for see not benefiting from the treatment modality/program being discussed? Why or why not?
- If you do not see this treatment modality/program as beneficial, how do you think this could impact your client?
- Students are encouraged to express their personal opinion in this journal; personal opinion can include class readings or discussion, personal history/experiences, or practice wisdom.

- Please conclude each journal entry with a 1-2 sentence summary stating the main thing(s) you learned from attending this field visit/listening to the guest lecturer.

- **12-Step Reflection Paper**

(45 points) Write a 4-5 page (not including the title or works cited page) reflection paper about a 12 step meeting you attended in the community. Papers should be double spaced, 12pt Times New Roman Font, and should include APA formatted in-text citations, works cited page and title page. Please include the AA book and a minimum of any 4 articles from your course pack. This paper is due **April 13**, however you are strongly encouraged to complete this assignment before its due date and can turn in any time before **April 13**. Papers should be formatted as follows and **include section headings**:

- 1. Observation** (*approximately 1 page, 5 points*)

In this section the student will briefly describe the proceedings of the meeting in which they attended. This includes the components of the meeting and the order in which they occurred. This section is to show student's attentiveness in the meeting and attendance to the meeting.

- 2. Analysis and Interaction of Readings** (*approximately 2-3 pages, 15 points*)

The student will also identify 12-step model in which the meeting is classified and explain specifically how the meeting was an example of the model (AA, NA, CA, Celebrate Recovery, Al-Anon, etc). What elements of the specific meeting that you attended concur with the characteristics a 12 step meeting/ treatment modality? Discuss your reactions to the meeting. Did the meeting deviate from the twelve step practice model? How did it differ and why? How did attending the meeting differ or concur with your expectations? Incorporate the AA book and 4 readings from the course pack and discuss how they align or do not align with the meeting you attended. This section is to show student's comprehension of weekly assigned readings and ability to apply readings to class lecture.

**\*\* Please ensure you are referencing and citing all readings related to your reflection paper in this section. Be sure you are citing sources you reference in your paper according to APA. \*\***

- 3. Brief Personal Reaction** (*Approximately 1-2 pages, 10 points*)

What was it like for you to attend the meeting? How did you feel before, during and after the meeting? Did you agree or disagree with certain elements of the meeting? Why? Would you recommend it to a client faced with chemical dependence? Why or why not? The student is expected to provide thorough rationale for points of agreement and disagreement. In this process, the students are free to use their personal opinion and are encouraged to cite in-class readings as well. Personal opinions can use life experiences or practice wisdom. However, multiple sides of the issue must be examined. Why would some individuals/clients find this treatment beneficial if you do not? The student is also expected to conclude their assignment with a 1-2 paragraph summary of the main things they learned from attending the meeting.

- 4. Correct APA Format and Citations** (*5 points*)
