

**THE UNIVERSITY OF TEXAS AT AUSTIN
STEVE HICKS SCHOOL OF SOCIAL WORK**

Course Number:	SW 385R	Instructor's name:	S. Rivaux, PhD, LMSW
Unique Number:	87600	Office Number:	Online / SSW 3.104A
Semester:	Summer 2020	Office Phone:	(512) 698.3831
Meeting Time:	T/Th 5:30-8:30 PM	Office Hours:	W 12:15-1:15 & by appointment
Meeting Place:	Online by Zoom	Instructor's e-mail:	s_rivaux@austin.utexas.edu

SOCIAL WORK RESEARCH METHODS

I. STANDARDIZED COURSE DESCRIPTION

This Foundation course is designed to help students gain an understanding of and appreciation for the use of research as a tool for professional evidence-based practice. Students are introduced to the concepts and skills underlying a systematic approach to social work research, including basic research terminology, the scientific method in social work, the value of research in social work, research ethics and the social work value base, problem formulation and conceptualization, measurement, research designs to evaluate programs and practice, sampling, alternative quantitative and qualitative data gathering and analytic techniques, and preparation and use of research reports. The emphasis in the course is on equipping students with the research knowledge and skills they'll need to engage in the evidence-based practice process at all levels of social work practice. As part of that process, they will learn how to critically appraise sources of scientific evidence and how the criteria for that appraisal will vary depending upon the purpose of the research.

II. STANDARDIZED COURSE OBJECTIVES

Upon completion of this course, students will be able to:

1. Formulate answerable evidence-based practice research questions;
2. Efficiently conduct advanced searches of electronic bibliographic databases and other sources to find evidence bearing on evidence-based practice research questions;
3. Critically appraise sources of scientific evidence and explain how the criteria for that appraisal will vary depending upon the purpose of the research;
4. Discuss why research evidence needs to be integrated with practice expertise and idiosyncratic client preferences, circumstances and values in the evidence-based practice process;
5. Design evaluations as part of evidence-based practice;
6. Explain how both qualitative and quantitative research processes apply in evidence-based practice;
7. Define basic qualitative and quantitative research concepts and describe the basic principles of causal inference, and their relationship to the various types of research designs;
8. Describe key concepts in measurement bearing on evidence-based practice, such as sources of measurement error, reliability and validity, and measurement equivalence across cultures;
9. Find measurement instruments applicable to evidence-based practice, sources of evidence bearing on the suitability of those instruments for specific practice scenarios, and critically appraise those sources from the standpoint of measurement principles and cultural sensitivity;

10. Describe the logic of probability sampling procedures, issues in the use of non-probability sampling procedures, how sampling issues bear on conducting evidence-based practice research at mezzo and macro levels of practice, and the implications of sampling for appraising and integrating sources of evidence in guiding practice decisions; -
11. Describe how particular values and sensitivity to ethical issues influence the conducting of research;
12. Give examples of the issues that diversity (e.g., gender, ethnicity, culture, age, sexual orientation, race, class, and physical or mental ability) raises in the conduct of research and in appraising and utilizing research to guide practice decisions;
13. Critically appraise how social work commitment to equity and social justice influences and differentiates the social work research process.

III. EPAS COMPETENCIES

The Steve Hicks School of Social Work has been continuously accredited by the Council on Social Work Education (CSWE) since 1952. In order to maintain our accreditation status, the UT SHSSW engages in ongoing curriculum assessment to demonstrate compliance with CSWE's Education Policies and Accreditation Standards (EPAS).

Using a common evaluation instrument, this course measures the implementation of knowledge, skills, values, and/or cognitive and affective processes to assess the following competencies:

Competency 4: Engage in Practice-informed Research and Research-informed Practice

Outcome 4.1: Use practice experience and theory to inform scientific inquiry and research

Outcome 4.2: Apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings

Outcome 4.3: Use and translate research evidence to inform and improve practice, policy, and service delivery

IV. TEACHING METHODS

The primary means of instruction will be informal lectures, in-class exercises in small groups, and class discussions about the assigned reading. Students will be expected to have done the assigned reading before class, to actively participate in class, and to collaborate with one another.

V. REQUIRED TEXTS, READINGS, AND OTHER MATERIALS

(Students are responsible for the material in the assigned readings whether or not the material is discussed in class.)

Required text:

Rubin, A. & Bellamy, J. (2012). *Practitioners guide to using research for evidence-based practice* (2nd edition). New York: John Wiley & Sons.

This book is also available as an e-book through the publisher:

<http://www.wiley.com/WileyCDA/WileyTitle/productCd-111823880X.html>

Required statistics readings: This is not a statistics course and in-depth knowledge of statistics is not required to succeed in this course. However, basic conceptual understanding of statistics is critical to any research endeavor. Therefore, statistical tests and concepts may be included as part of course

content. Students may use a statistics textbook to review these topics if they have one available or may refer to resource such as one of the following online, public-domain resources:

Online Statistics Education: A Multimedia Course of Study (<http://onlinestatbook.com/>). Project

Leader: David M. Lane, Rice University. Available: <http://onlinestatbook.com/2/index.html>

UCLA Statistics Online Computational Resource: <http://wiki.stat.ucla.edu/socr/index.php/EBook>

Swinscow (1997). Statistics at Square One: <http://www.bmj.com/about-bmj/resources-readers/publications/statistics-square-one>

StatSoft: <http://www.statsoft.com/Textbook/Elementary-Statistics-Concepts/button/1>

Additional readings: Electronic copies of, or links to, other readings will be posted to Canvas during the semester. Students are responsible for checking the course site regularly for these.

Websites relevant to this course

<http://www.campbellcollaboration.org> (meta analysis of the effects of interventions in the social, behavioral, crime and justice, and educational arenas)

<http://www.cochrane.org> (meta analysis of the effects of health and mental health interventions)

http://www.psych.org/psych_pract/treatg/pg/prac_guide.cfm (practice guidelines for psychiatrists for each psychiatric/mental/cognitive disorders)

<http://evidencebasedprograms.org> Social programs that work

VI. COURSE REQUIREMENTS

The final course grade will be computed from grades on two exams (50%), one group proposal project (20%), written assignments / in-class pop quizzes (20%), and class participation/attendance (10%). One optional extra credit assignment will be offered (2%).

1. Two exams, one at midterm and one the final class day, will cover all materials assigned and/or discussed in this course. Each exam is worth 25% of the course grade.
2. Group written research proposal (no more than 18 double-spaced pages, page limits exclude title page, references and appendices) and class presentation: The proposal will be worth 20%. Students will work in teams to write a proposal for a research project on a program/service/intervention addressing a chosen problem. Note that page limits will be strictly adhered to and any pages beyond the allowable limit will not be considered in grading the project.

The project will be completed in stages: (1) a concept paper, (2) a background and literature review, (3) meeting with the professor regarding methodology, and (4) the final proposal. Because learning to write about research is a process, only the final proposal paper will be graded. However, when assigning a grade, the instructor will include consideration of whether conscientious drafts were submitted and will use a $\checkmark+$, \checkmark , $\checkmark-$ grading scale to provide feedback. Written feedback will be provided after each step of the process so students can improve their work before the final project is submitted for grading. Late submissions on any part of the project will be applied to the final grade for the project.

Since group members will rely on each other to get a good grade on this project, it is very important that group members contribute actively and equally. Thus, with submission of the final paper, each student must also send the instructor a paragraph describing the contributions of each group member (themselves included) and assessing each member's performance in producing the paper and presentation. The instructor reserves the right to grade individual group members commensurate with their contributions to the project. Should any individual not share sufficiently in the workload, the instructor may assign a lower grade to that student. Students are responsible for talking to the instructor if a group member is not participating equally in the project or is impeding the group process in any other

way. Learning how to function effectively in workgroups is part of your learning process in this course and is a core learning objective of the group assignment.

3. Short written assignments, applied research activities, and/or pop quizzes will occur during the semester, comprising 20% of the grade. One of these assignments will be providing a written peer review of another group's research proposal. Other assignments may involve participating in research activities on actual research projects. Quizzes will be given at the beginning of class, therefore it is important to be present and arrive on time. There will be no make-ups for pop quizzes or in-class assignments.
4. Class attendance, preparation, and participation (10%): It is important that social work practitioners take responsibility for their own continued learning and for acting in a professional manner. Thus, students are expected to maintain good attendance, to complete assigned homework / readings before the class meeting for which they are assigned, to compile questions regarding the material for class discussion, and to actively participate in both class discussions and group exercises.

Students are expected to attend all classes and to arrive punctually. Coming late and/or leaving early by more than 15 minutes will be considered a "missed" class unless that student provides a reasonable reason for doing so and receives instructor permission in advance. While it is expected students will attend all classes if at all possible, the instructor realizes that absences are excusable in the event of unexpected emergencies, illness, medical appointments, university-sanctioned events, or religious holidays. Missing more than one class will adversely impact the attendance/preparation/participation portion of the final grade. Please inform the professor if you will be late or not attend class.

In the event a class must be cancelled, students will be provided an assignment to help them work with the material for that day. Conscientious, thorough completion of such assignments will count as attendance for that class. Assignments that are not completed or are poorly completed will result in similar grade reductions as unexcused absences.

5. Optional extra credit - Human subjects protections training (2%): Most social science research uses information about human subjects. Due to the potential for abuses in the research context, federal and university rules govern how research on human subjects can be conducted. All research about human subjects conducted at the University must be approved by an Institutional Review Board (IRB) before starting. The major goals of IRB review are to minimize risk to human subjects (beneficence), ensure all subjects consent to participate with full information about the project and its risks (autonomy), and promote equitable conduct of research (justice). Therefore, students who wish to better understand the processes – or who just want to earn an extra 2% - may take the human subjects protection course (CITI) at: www.utexas.edu/research/rsc/humansubjects/training/index.html. When you complete the course, a completion certificate will be presented. Turn this in to the instructor to receive credit. Keep a copy for yourself in case you need it later.

VII. GRADING

Accumulated points and grading scale

94-100 = A 90-93.99 = A- 87-89.99 = B+ 84-86.99 = B 80-83.99 = B- 77-79.99 = C+
74-76.99 = C 70-73.99 = C- 67-69.99 = D+ 64-66.99 = D 60-63.99 = D- <=59.999 = F

Grades will NOT be rounded up.

Please note that you will not earn credit for MSSW courses if your final grade falls below a 'C'. You must earn a 'C' or above for credit to be given for the course.

VIII. COURSE POLICIES

Canvas: The instructor uses Canvas (web-based, course-management systems with password-protected access) as the primary means of communicating with students. All course materials will be posted on the course's site. The site may also be used to communicate and collaborate online, to post grades, to give online quizzes or surveys. Students are responsible for checking this site regularly for class announcements and for new postings. Support in using Canvas can be obtained from the ITS Help Desk by calling 475-9400 between 8AM-6PM on Monday through Friday. Please plan accordingly.

Late Assignment Policies: Except in the case of extreme emergencies, and then only with prior permission from the professor, late assignments will not be accepted without penalty. Students will lose 3 points for each day that an assignment is late. If the due date is a problem, then the student must contact the professor and negotiate another due date at least **48 hours PRIOR** to the date specified in the course syllabus.

Incompletes: Students are expected to complete all course work by the last day of class and to complete all assignments by the dates due. Only in emergency situations will an incomplete grade be given for a course and only when, prior to the emergency, the student has been in attendance and has done satisfactory work. If an incomplete grade should be assigned, there will be a written agreement with the instructor about when and how the work will be completed.

Computer and Other Electronic Device Use Policy: Students are expected to use laptops and handheld computers in class for class-related purposes only. To engage in other types of computer use and/or electronics use (e.g., accepting or making phone calls, texting, surfing the net, etc.) is unprofessional and disruptive to the course. Thus, students who violate this policy may be asked to leave the classroom.

Feedback on Learning: During this course the professor will ask students to provide feedback on their learning in informal as well as formal ways. It is very important for the professor to know the students' reactions to what is taking place in class, so students are encouraged to inform the professor on how her teaching strategies are helping or hindering student learning, ensuring that together the professor and students can create an environment effective for teaching and learning.

Course and Instructor Evaluations: At the end of the semester, the instructor will use the standard Course Instructor Survey (CIS) provided by the University of Texas at Austin. The CIS provides a systematic, campus-wide method of evaluating courses and instructors. I hope that every student will complete the CIS. Although important, these evaluations are after-the-fact. Therefore, I strongly encourage you to provide input and feedback regarding the course during the semester so that together we can make this course of maximum benefit to you!

IX. UNIVERSITY POLICIES

THE UNIVERSITY OF TEXAS HONOR CODE. The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.

DOCUMENTED DISABILITY STATEMENT. Any student who requires special accommodations must obtain a letter that documents the disability from the Services for Students with Disabilities area of the Division of

Diversity and Community Engagement (471- 6259 voice or 471-4641 TTY for users who are deaf or hard of hearing). A student should present the letter to the professor at the beginning of the semester so that needed accommodations can be discussed and followed. The student should remind the professor of any testing accommodations no later than five business days before an exam. For more information, visit: <http://diversity.utexas.edu/disability/>.

PROFESSIONAL CONDUCT AND CIVILITY IN THE CLASSROOM. The professor expects students to act as professionals in class. This means students should arrive on time for class, be prepared to participate in the class discussion, and show respect for one another's opinions. A course brings together a group of diverse individuals with various backgrounds. Students are influenced and shaped by such factors as race, ethnicity, gender, sex, physical abilities, religious and political beliefs, national origins, and sexual orientations, among others. We expect to learn from each other in an atmosphere of positive engagement and mutual respect. This atmosphere includes working intentionally to recognize and dismantle racism, sexism, heterosexism, and ableism in the classroom. Social Work also deals with complex and controversial issues. These issues may be challenging and uncomfortable, and it would be impossible to offer a substantive classroom experience that did not include potentially difficult conversations relating to challenging issues. In this environment, we will be exposed to diverse ideas and opinions, and sometimes we will not agree with the ideas expressed by others. Nevertheless, the professor requires that students engage one another with civility, respect, and professionalism.

UNANTICIPATED DISTRESS. Students may experience unexpected and/or distressing reactions to course readings, videos, conversations, and assignments. If so, students are encouraged to inform the professor. The professor can be responsive and supportive regarding students' participation in course assignments and activities, but students are responsible for communicating clearly what kind of support is desired. If counseling is needed, students may contact a service provider of their choosing, including the UT Counseling Center at 512-471-3515 or online at <https://cmhc.utexas.edu/>.

POLICY ON SOCIAL MEDIA AND PROFESSIONAL COMMUNICATION. Public social networks are not private. Even when open only to approved or invited members, users cannot be certain that privacy will exist among the general membership of sites. If social work students choose to participate in such forums, please assume that anything posted can be seen, read, and critiqued. What is said, posted, linked to, commented on, uploaded, subscribed to, etc., can be accessed and archived, posing potential harm to professional reputations and prospective careers.

Social work students who use social media (e.g. Facebook, Twitter, Instagram) and other forms of electronic communication (e.g. blogs) must be mindful of how their communication may be perceived by clients, colleagues, faculty, and others. Social work students are expected to make every effort to minimize material which could be considered inappropriate for a professional social worker in training. Because of this, social work students are advised to manage security settings at their most private levels and avoid posting information/photos or using any language that could jeopardize their professional image.

Students are asked to consider the amount of personal information posted on these sites and are obliged to block any client access to involvement in the students' social networks. Client material should not be referred to in any form of electronic media, including *any* information that might lead to the identification of a client or compromise client confidentiality in *any* way. Additionally, students must critically evaluate any material that is posted regarding community agencies and professional relationships, as certain material could violate the standards set by the School of Social Work, the Texas Code of Conduct for Social Workers, and/or the NASW Code of Ethics.

Social work students should consider that they will be representing professional social work practice as well as The University of Texas at Austin School of Social Work program while in the classroom, the university community, and the broader area communities.

POLICY ON SCHOLASTIC DISHONESTY. Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on scholastic dishonesty will be strictly enforced. For further information, the student may refer to the Web Site of the Student Judicial Services, Office of the Dean of Students: <http://deanofstudents.utexas.edu/sjs/>.

USE OF COURSE MATERIALS. The materials used in this course, including, but not limited to exams, quizzes, and homework assignments, are copyright protected works. Any unauthorized duplication of the course materials is a violation of federal law and may result in disciplinary action being taken against the student. Additionally, the sharing of course materials without the specific, express approval of the professor may be a violation of the University's Student Honor Code and an act of academic dishonesty, which could result in further disciplinary action. This sharing includes, among other things, uploading class materials to websites for the purpose of distributing those materials to other current or future students.

CLASSROOM CONFIDENTIALITY. Information shared in class about agencies, clients, and personal matters is considered confidential per the NASW Code of Ethics on educational supervision and is protected by regulations of the Family Educational Rights and Privacy Act (FERPA) as well. As such, sharing this information with individuals outside of the educational context is not permitted. Violations of confidentiality could result in actions taken according to the policies and procedure for review of academic performance located in sections 3.0, 3.1, and 3.2 of the Standards for Social Work Education.

USE OF E-MAIL FOR OFFICIAL CORRESPONDENCE TO STUDENTS. Email is recognized as an official mode of university correspondence; therefore, students are responsible for reading their email for university and course-related information and announcements. Students are responsible for keeping the university informed about a change of e-mail address. Students should check their e-mail regularly and frequently—daily, but at minimum twice a week—to stay current with university-related communications, some of which may be time-sensitive. Students can find UT Austin's policies and instructions for updating their e-mail address at <http://www.utexas.edu/its/policies/emailnotify.php>.

RELIGIOUS HOLIDAYS. By UT Austin policy, students must notify the professor of a pending absence at least fourteen days prior to the date of observance of a religious holy day. If the student must miss a class, examination, work assignment, or project in order to observe a religious holy day, the professor will give the student an opportunity to complete the missed work within a reasonable time after the absence.

TITLE IX REPORTING. In accordance with Title IX of the Education Amendments of 1972, the University of Texas at Austin is committed to maintaining a learning environment that is free from discriminatory conduct on the basis of sex <https://titleix.utexas.edu/>. Faculty, field instructors, staff, and/or teaching assistants in their supervisory roles are mandated reporters of incidents of sex discrimination, sexual harassment, sexual violence, stalking, dating violence, or any other forms of sexual misconduct. Students who report such incidents will be informed of University resources. Incidents will be reported to the University's Title IX Coordinator. Further information, including student resources related to Title IX, may also be found at <https://titleix.utexas.edu/>.

CAMPUS CARRY POLICY. The University’s policy on concealed firearms may be found here: <https://campuscarry.utexas.edu>. You also may find this information by accessing the Quick Links menu on the School’s website.

SAFETY. As part of professional social work education, students may have assignments that involve working in agency settings and/or the community. As such, these assignments may present some risks. Sound choices and caution may lower risks inherent to the profession. It is the student's responsibility to be aware of and adhere to policies and practices related to agency and/or community safety. Students should notify the professor regarding any safety concerns.

BEHAVIOR CONCERNS ADVICE LINE (BCAL). If students have concerns about their behavioral health, or if they are concerned about the behavioral health of someone else, students may use the Behavior Concerns Advice Line to discuss by phone their concerns. This service is provided through a partnership between the Office of the Dean of Students, the Counseling and Mental Health Center (CMHC), the Employee Assistance Program (EAP), and The University of Texas Police Department (UTPD). Call 512-232-5050 or visit <http://www.utexas.edu/safety/bcal>.

EMERGENCY EVACUATION POLICY. Occupants of buildings on the UT Austin campus are required to evacuate and assemble outside when a fire alarm is activated or an announcement is made. Please be aware of the following policies regarding evacuation:

- Familiarize yourself with all exit doors in the classroom and the building. Remember that the nearest exit door may not be the one you used when entering the building.
- If you require assistance to evacuate, inform the professor in writing during the first week of class.
- In the event of an evacuation, follow the professor’s instructions.
- Do not re-enter a building unless you are given instructions by the Austin Fire Department, the UT Austin Police Department, or the Fire Prevention Services office.

X. COURSE SCHEDULE

The anticipated schedule of activities for this course is below. Reading due dates are the class for which the reading is listed. The instructor reserves the option to modify the schedule if deemed necessary. References to chapters are from the course textbook. Additional readings will be posted on Canvas.

Date	Description	Text/Readings
Class 1 6/4	Introduction to course Introduction to evidence-based practice and policy Form teams for paper assignment Discuss human subjects assignment	Read and be prepared to discuss Class 1 readings from course website Read description of www.campbellcollaboration.org and www.cochrane.org
Class 2 6/9	Evidence-based social work practice and policy; Philosophy and theory Review basic statistical concepts: variables, levels of measurement, sampling, descriptive v. Inferential statistics, clinical v. statistical significance HUMAN SUBJECTS OPTIONAL ASSIGNMENT DUE	Rubin & Bellamy, Ch 1-3, Appendix B Review statistical topics in text or online
Class 3 6/11	Ethics and politics Culturally competent research	Read and be prepared to discuss Class 3 articles from course website

	Criteria for inferring effectiveness	
Class 4 6/16	Critically appraising experimental designs CONCEPT PAPER FOR RESEARCH PROPOSAL DUE	Rubin & Bellamy, Ch 4 & 5 Read and be prepared to discuss Class 4 articles from course website
Class 5 6/18	Critically appraising experiments and quasi experiments	Rubin & Bellamy, Ch 5-6 Read and be prepared to discuss Class 5 articles from course website
Class 6 6/23	Critically appraising time-series designs and single-case designs Monitoring client progress (single-case revisited) Review for first exam	Rubin & Bellamy, Ch 7 and 12 Read and be prepared to discuss Class 6 articles from course website
Class 7 6/25	EXAM ONE (1.5 hour) (Activity for rest of class time TBD) Mid-course evaluation	
Class 8 6/30	Review exam Critically appraising systematic reviews and meta-analyses PART ONE OF RESEARCH PROPOSAL DUE (TITLE PAGE, INTRODUCTION/BACKGROUND, LITERATURE REVIEW)	Rubin & Bellamy, Ch 8 Read and be prepared to discuss Class 8 articles from course website
Class 9 7/2	Critically appraising non-experimental quantitative studies. SCHEDULE GROUP MEETING W/PROFESSOR TO BRAINSTORM PROPOSAL METHODOLOGY	Rubin & Bellamy, Ch 9 Read and be prepared to discuss Class 10 articles from course website
Class 10 7/7	Non-experimental quantitative studies continued	Class 10 readings from course website
Class 11 7/9	Critically appraising qualitative studies	Class 11 readings from course website Robert Woods Johnson website on qualitative rigor
Class 12 7/14	Qualitative methods continued	Class 12 readings from course website
Class 13 7/16	Critically appraising and selecting assessment instruments	Rubin & Bellamy, Ch 11 Class 13 readings from course website
Class 14 7/21	Bringing it all together – EBP in the field PEER REVIEW DUE	Reread Rubin & Bellamy, Ch 12 Class 14 readings from website
Class 15 7/23	Course evaluation Review for second exam Consultation on group projects	
Class 16 7/28	EXAM TWO (1.5 hour) Consultation on group projects	
****FINAL RESEARCH PROPOSAL PAPERS AND ASSESSMENTS OF GROUP MEMBER CONTRIBUTIONS ARE DUE BY FRIDAY 7/31 AT 5PM. THESE DOCUMENTS MUST BE SUBMITTED ELECTRONICALLY. BE SURE YOU GET A RETURN EMAIL FROM ME, VERIFYING RECEIPT OF THE DOCUMENTS! ****
