THE UNIVERSITY OF TEXAS STEVE HICKS SCHOOL OF SOCIAL WORK

HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT

I. STANDARDIZED COURSE DESCRIPTION

This course explores the biopsychosocial-spiritual and cultural functioning of human beings within the context of their environment across the life span using major theories of change as a framework to guide social work practice with individuals, families, groups, organizations, and communities. Students will critically examine the basic principles of several theories of change prior to making selections appropriate for engagement, assessment, intervention, and evaluation in work with clients/client systems.

Students also will apply an understanding of socially constructed concepts incorporating a person-in-environment perspective including racialization, ethnic origin, class, gender, gender identity and expression, culture, sexual orientation, religion, age, physical and mental disabilities, caste, immigration/refugee status, national origin of communities and tribal sovereign status. Socially and equitable engagement in services to individuals, families, and communities drives the teaching approach and educational foundation of this course.

This course carries the Writing Flag. Writing Flag courses are designed to give students experience with writing in an academic discipline. In this class, you can expect to write regularly during the semester, complete substantial writing projects, and receive feedback from your instructor to help you improve your writing. You will also have the opportunity to revise one or more assignments, and you may be asked to read and discuss your peers' work. You should therefore expect a substantial portion of your grade to come from your written work. Writing Flag classes meet the Core Communications objectives of Critical Thinking, Communication, Teamwork, and Personal Responsibility, established by the Texas Higher Education Coordinating Board.

Prerequisites: For social work majors, admission to the practice sequence; for others, upper-division standing.

II. STANDARDIZED COURSE OBJECTIVES

By the end of the course, you will be able to:

1. Use evidence-based, culturally grounded theoretical perspectives, including theories and perspectives developed by Black, Indigenous and other scholars of color, to describe neurobiological, social, cultural, psychological, and spiritual development within the context of the broader environment over the human lifecycle.
2. Apply socially constructed concepts relating to social identity including racialization, ethnic origin, class, gender, gender identity and expression, culture, sexual orientation, religion, age, physical and mental disabilities, caste, immigration/refugee status, national origin of communities and tribal sovereign status and other factors contributing to human development within social environments.
3. Analyze basic principles and critiques of various social change theories, perspectives and practices, focusing on engagement, assessment of needs, intervention, and evaluation with individuals, families, groups, organizations and communities, including but not limited to, perspectives of ecological systems theory, strengths-based perspective, critical race theory, social construction theories, racial identity theory, queer-crit theory, lat-crit theory, dis-crit, theories with anti-racism and anti-oppressive focus, psychosocial development, psychodynamic theories, social learning theories, cognitive theories, narrative theories, perspectives on adverse childhood experiences (ACEs) and transtheoretical model of change.
4. Using a social justice lens, identify policies, behaviors, and beliefs that perpetuate racist and oppressive systems and suggest strategies for change.
5. Apply theories of social change to life situations in an effectively written analysis of an assigned case with consideration of social work values, the impact of social institutions on clients/client systems, and equitable social work practice.
6. Explain the importance of centering clients/communities as experts in their lived experiences.
7. Engage in intentional practices of exploring personal biases and assumptions relating to the intersectionality of identities and celebrate the progress made in this life-long process.

EPAS Competencies

The Steve Hicks School of Social Work has been continuously accredited by the Council on Social Work Education (CSWE) since 1952. In order to maintain our accreditation status, the UT SHSSW engages in ongoing curriculum assessment to demonstrate compliance with CSWE's Educational Policies and Accreditation Standards (EPAS).

Using a common evaluation instrument, this course measures the implementation of knowledge, skills, values, and/or cognitive and affective processes to assess the following competencies:

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Outcome 6.1: Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Outcome 7.2: Apply knowledge of human behavior and the social environment, person-in-environment, and other interdisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Outcome 8.2: Apply knowledge of human behavior and the social environment, person-in-environment, and other interdisciplinary theoretical frameworks in interventions with clients and constituencies.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Outcome 9.2: Apply knowledge of human behavior and the social environment, person-in-environment, and other interdisciplinary theoretical frameworks in evaluating practice with individuals, families, and groups.

III. TEACHING METHODS

This course is designed to provide the student with a meaningful learning environment that will facilitate mastery of knowledge and skills in the area of human behavior in the social environment. The class will be conducted remotely using an active learning approach. Teaching methods include a combination of readings and reflection of content, small group discussion, audiovisual presentations, case study analyses, experiential exercises, and lectures. Students are expected to be open to learning and actively engaged in course discussion and activities, to take appropriate personal risks, and to demonstrate both critical thinking and self-reflection throughout the course.

IV. REQUIRED TEXT AND MATERIALS

Hutchison, E.D. (2017). *Essentials of human behavior: Integrating person, environment, and the life course (3rd edition.)*. Los Angeles, CA: Sage. (available in an E-text)

Additional readings from other books and journal articles are listed in the course schedule section of the syllabus and posted on Canvas.

V. COURSE REQUIREMENTS

Your grade for this course will be based on the following requirements:

1. **Hot Topics/Perspective Papers:** **Monday, Tuesday, and Wednesday's** as given by professor, lecture, viewing PowerPoint slides and video/media presentations and completing assigned readings. Students will complete four perspective papers that will be due **Thursdays will be used to write and complete due assignments by mid-night** applying concepts covered in asynchronous and synchronous materials, readings to various scenarios and breakout discussion, or class lectures. **(40pts of grade)**
2. **Case analysis:** Each student will write an independent case analysis based on one of the case studies in the text designated by the instructor. Students will incorporate a literature review, integrating at least 5 peer-reviewed journal articles, that supports the assessment and intervention portions of their case analysis. This case analysis will be submitted and due July 3rd by midnight. See syllabus appendix for specific assignment guidelines **(35 pts. of grade)**
3. **Final Exam: Students** will complete a take-home final examination applying concepts learned in the course to a film. See syllabus appendix for specific assignment guidelines. **(15pts of grade)**
4. **Class participation:** Students will be expected to attend all classes regularly and participate actively in discussions, both online **(if we have to ZOOM)** and in class. Sign- in each day. **(10pts of grade)**

VI. GRADES

94.0 and Above	A
90.0 to 93.999	A-
87.0 to 89.999	B+
84.0 to 86.999	B
80.0 to 83.999	B-
77.0 to 79.999	C+
74.0 to 76.999	C
70.0 to 73.999	C-
67.0 to 69.999	D+
64.0 to 66.999	D
60.0 to 63.999	D-
Below 60.0	F

VII. CLASS POLICIES

1. **Conduct and Civility:** Social work students adhere to the Student Standards for Professional Conduct of the NASW Code of Ethics and assume responsibility for their conduct. Scholastic honesty and integrity are to be consistent social work values. The instructor will comply with University guidelines regarding scholastic dishonesty, including plagiarism. Social work

practitioners respect others; therefore, differences in values, opinions, and feelings of class members and guest speakers will be respected. Students will help create and support a learning environment that does not interfere with the learning of fellow students. When students voice an opinion with which you do not agree, feel free to voice opinions in a civil manner that can enhance the flow of ideas and dialog.

2. Readings and Preparatory Assignments: Students are expected to be active and participate in the learning process, and in an interactive framework between collegiate students and professor. Students are also expected to complete readings and preparatory assignments prior to class. Failure to demonstrate through discussions in class, online, and through assignments that one has comprehended the readings will be considered when assigning the final grade. Students are responsible for the material in the assigned readings whether or not the material is covered in class. Professor reserves the right to conduct quizzes should there be a pattern of students not demonstrating that they have completed the readings and are not prepared to engage in thoughtful discussion.

3. Professional Communication and Interactions: Refrain from private conversations during class or other disruptive behavior. Disrespect toward the professor, students, or others is unacceptable and will be handled directly and in the context it occurs. Disrespectful behavior includes overt acts, such as talking over others or making derogatory remarks based on another person's age, race, class, gender, sexual orientation, religious preference, and ability. Moreover, covert acts of disrespect such as sneers, and other facial expressions, excluding class members from classroom tasks, etc. are also unacceptable. **Electronic Devices:** All communication devices should be turned off or placed on silent mode and put away during class. Unless laptops are required for specific class sessions, students may not use laptops during class without prior permission from the professor. Grade is negatively impacted by student's failure to comply with this policy.

4. Class Attendance Policy: Punctuality and timeliness are important for social work practitioners. Class attendance is expected. Attendance is defined as students' attentive physical presence in class for the entire class. Establishing a pattern of late arrivals and early departures will negatively affect your grade. It is your responsibility to sign the class attendance sheet. The instructor should be notified in advance of any planned absence and as soon as possible in the case of an unforeseen, serious emergency.

5. Assignments and Grades: Assignments should be turned in online on the date they are due, barring serious, unforeseen medical illness or family emergencies. Late assignments will be considered when assigning the final grade.

6. Writing Style: The Publication Manual of the American Psychological Association Sixth Edition (APA) is the style manual to be used by all students. The manual is available at the library or for purchase at the UT Co-op.

7. Use of Canvas: The professor uses Canvas Web-based course management/collective workspace. An orientation will be given on the first day of class. If you do not have a personal computer with personal Internet access, there are computers available for your use at the SW Learning Resource Center (LRC), the Flawn Academic Center, campus and public libraries.

8. Course Modification: To ensure achievement for course objectives, the professor reserves the right to make modifications to any part of this syllabus related to schedule and assignment due dates. Should any modifications be made, students will be notified in class and modifications will be posted to Canvas. Students should check their email frequently. Note that some of the links to documents and videos on the Internet may change. Documents, new links or alternate options will be provided.

9. Classroom Courtesy: As a courtesy to the class that meets after your class, please dispose of trash and to return the chairs and desks to rows or some sort of organized arrangement.

VIII. UNIVERSITY POLICIES

Grading Scale

90.0 to 93.999	A-	80.0 to 83.999	B-	70.0 to 73.999	C-	60.0 to 63.999	D-
				<i>*minimum to pass course</i>		Below 60.0	F

Attendance and Academic Behavior. At the University of Texas at Austin, regular attendance at all class meetings is expected. Instructors are responsible for implementing an attendance policy and must notify students of any special attendance requirements. See more information at <https://catalog.utexas.edu/general-information/academic-policies-and-procedures/attendance/>. Furthermore, students are expected to abide by the Standards for Social Work Education (available at <https://socialwork.utexas.edu/student-resources/bsw/policies-and-procedures/>). The student shows potential for responsible and accountable behavior by being punctual and dependable, prioritizing responsibilities, attending class regularly, observing deadlines, completing assignments on time, and keeping appointments or making appropriate arrangements.

Religious Holy Days. A student who misses classes or other required activities, including examinations, for the observance of a religious holy day should inform the instructor as far in advance of the absence as possible so that arrangements can be made to complete an assignment within a reasonable period after the absence. A reasonable accommodation does not include substantial modification to academic standards, or adjustments of requirements essential to any program of instruction. Students and instructors who have questions or concerns about academic accommodations for religious observance or religious beliefs may contact the Center for Access and Restorative Engagement at <https://community.utexas.edu/care/>. The University does not maintain a list of religious holy days.

The University of Texas Honor Code. The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.

Policy on Academic Integrity. Students who violate University rules on academic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and / or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on academic dishonesty will be strictly enforced. For further information, please visit the Student Conduct and Academic Integrity website at:

<http://deanofstudents.utexas.edu/conduct>.

Use of Course Materials. The materials used in this course, including, but not limited to exams, quizzes, and homework assignments, are copyright protected works. Any unauthorized duplication of the course materials is a violation of federal law and may result in disciplinary action being taken against the student. Additionally, the sharing of course materials without the specific, express approval of the professor may be a violation of the University's Student Honor Code and an act of academic dishonesty, which could result in further disciplinary action. This sharing includes, among other things, uploading class materials to websites for the purpose of distributing those materials to other current or future students.

University Electronic Mail Student Notification. Electronic mail (email), like postal mail, is a mechanism for official University communication to students. The University will exercise the right to send email communications to all students, and the University will expect that email communications will be received and read in a timely manner. Students can find UT Austin's policies and instructions for updating their e-mail address at <https://it.utexas.edu/policies/university-electronic-mail-student-notification-policy>.

Steve Hicks School of Social Work Policies

Professional Conduct and Civility in the Classroom. The professor expects students to act as professionals in class. This means students should arrive on time for class, be prepared to participate in the class discussion, and show respect for one another's opinions. A course brings together a group of diverse individuals with various backgrounds. Students are influenced and shaped by such factors as race, ethnicity, gender, sex, physical abilities, religious and political beliefs, national origins, and sexual orientations, among others. We expect to learn from each other in an atmosphere of positive engagement and mutual respect. This atmosphere includes working intentionally to recognize and dismantle racism, sexism, heterosexism, and ableism in the classroom. Social Work also deals with complex and controversial issues. These issues may be challenging and uncomfortable, and it would be impossible to offer a substantive classroom experience that did not include potentially difficult conversations relating to challenging issues. In this environment, we will be exposed to diverse ideas and opinions, and sometimes we will not agree with the ideas expressed by others. Nevertheless, the professor requires that students engage one another with civility, respect, and professionalism.

Classroom Confidentiality. Information shared in class about agencies, clients, and personal matters is considered confidential per the NASW Code of Ethics on educational supervision and is protected by regulations of the Family Educational Rights and Privacy Act (FERPA) as well. As such, sharing this information with individuals outside of the educational context is not permitted. Violations of confidentiality could result in actions taken according to the policies and procedure for review of academic performance located in sections 3.0, 3.1, and 3.2 of the Standards for Social Work Education.

Unanticipated Distress. Students may experience unexpected and/or distressing reactions to course readings, videos, conversations, and assignments. If so, students are encouraged to inform the professor. The professor can be responsive and supportive regarding students' participation in course assignments and activities, but students are responsible for communicating clearly what

kind of support is desired. If counseling is needed, students may contact a service provider of their choosing, including the UT Counseling and Mental Health Center at 512-471-3515 or online at <https://cmhc.utexas.edu/>.

Policy on Social Media and Professional Communication. Public social networks are not private. Even when open only to approved or invited members, users cannot be certain that privacy will exist among the general membership of sites. If social work students choose to participate in such forums, please assume that anything posted can be seen, read, and critiqued. What is said, posted, linked to, commented on, uploaded, subscribed to, etc., can be accessed and archived, posing potential harm to professional reputations and prospective careers.

Social work students who use social media (e.g. Facebook, Twitter, Instagram) and other forms of electronic communication (e.g. blogs) must be mindful of how their communication may be perceived by clients, colleagues, faculty, and others. Social work students are expected to make every effort to minimize material which could be considered inappropriate for a professional social worker in training. Because of this, social work students are advised to manage security settings at their most private levels and avoid posting information/photos or using any language that could jeopardize their professional image.

Students are asked to consider the amount of personal information posted on these sites and are obliged to block any client access to involvement in the students' social networks. Client material should not be referred to in any form of electronic media, including *any* information that might lead to the identification of a client or compromise client confidentiality in *any* way. Additionally, students must critically evaluate any material that is posted regarding community agencies and professional relationships, as certain material could violate the standards set by the School of Social Work, the Texas Code of Conduct for Social Workers, and/or the NASW Code of Ethics.

Social work students should consider that they will be representing professional social work practice as well as The University of Texas at Austin School of Social Work program while in the classroom, the university community, and the broader area communities.

Resources, Prevention of Discrimination, and Safety

Disability Accommodation Statement. If you are a student with a disability, or think you may have a disability, and need accommodations please contact Disability and Access (D&A). You may refer to D&A's website for contact and more information: <https://community.utexas.edu/disability/>. If you are already registered with D&A, please deliver your Accommodation Letter to me as early as possible in the semester so we can discuss your approved accommodations and how they apply in my class.

Behavior Concerns and Covid-19 Advice Line (BCCAL). If students have concerns about their behavioral health, or if they are concerned about the behavioral health of someone else, students may use the Behavior Concerns and COVID-19 Advice Line to discuss by phone their concerns. This service is provided through a partnership between the Office of the Dean of Students, the Counseling and Mental Health Center (CMHC), the Employee Assistance Program (EAP), and The University of Texas Police Department (UTPD). Call 512-232-5050 or visit <https://safety.utexas.edu/behavior-concerns-advice-line>. The Behavior Concerns and COVID-19 Advice Line has been expanded to support The University of Texas at Austin

community during the COVID-19 pandemic. By calling 512-232-5050 - Option 2 for COVID-19, students, faculty and staff can be assisted in English and Spanish with COVID-19 support.

Covid-19 Related Information. The University's policies and practices related to the pandemic may be accessed at: <https://protect.utexas.edu/>

Title IX Reporting. In accordance with Title IX of the Education Amendments of 1972, the University of Texas at Austin is committed to maintaining a learning environment that is free from discriminatory conduct on the basis of sex <https://titleix.utexas.edu/>. Faculty, field instructors, staff, and/or teaching assistants in their supervisory roles are mandated reporters of incidents of sex discrimination, sexual harassment, sexual violence, stalking, dating violence, or any other forms of sexual misconduct. Students who report such incidents will be informed of University resources. Incidents will be reported to the University's Title IX Coordinator. Further information, including student resources related to Title IX, may also be found at <https://titleix.utexas.edu/>.

Title IX Accommodations for Those Pregnant, Nursing and Parenting. Pregnant, nursing and parenting students, faculty, and staff are eligible for accommodations through the Title IX Office that support equal access to education and work and prevent discrimination. Students may reach out to the Title IX Office for help with accommodations to make up missed classes, complete missed coursework, keep them safe in the classroom, apply for leaves of absence, receive priority registration and other related support. Faculty and staff, including undergraduate students who work on campus and graduate student employees, may reach out for assistance with job or schedule restructuring and obtaining modified or additional work equipment. Visit the [Title IX pregnancy and parenting resource page](#) for more information or contact the [Title IX Support and Resources team](#) connect with a Case Manager.

Campus Carry Policy. The University's policy on campus carry may be found here: <https://campuscarry.utexas.edu>.

Safety. As part of professional social work education, students may have assignments that involve working in agency settings and/or the community. As such, these assignments may present some risks. Sound choices and caution may lower risks inherent to the profession. It is the student's responsibility to be aware of and adhere to policies and practices related to agency and/or community safety. Students should notify the professor regarding any safety concerns.

Emergency Evacuation Policy. Occupants of buildings on the UT Austin campus are required to evacuate and assemble outside when a fire alarm is activated or an announcement is made. Please be aware of the following policies regarding evacuation:

- Familiarize yourself with all exit doors in the classroom and the building. Remember that the nearest exit door may not be the one you used when entering the building.
- If you require assistance to evacuate, inform the professor in writing during the first week of class.
- In the event of an evacuation, follow the professor's instructions.
- Do not re-enter a building unless you are given instructions by the Austin Fire Department, the UT Austin Police Department, or the Fire Prevention Services office.

IX. COURSE SCHEDULE

Date	Topic	Assignment Due	Readings
W1 June 6 Thursday	<ul style="list-style-type: none"> • Introduction and course overview • Establishment of guidelines for class discussion • A multidimensional approach to human behavior and social work practice • Writing from a social work perspective • Class Themes Experience +Perspective + Behavior		<ul style="list-style-type: none"> • Start reading Hutchison Chapter 1-3

A. FINAL CASE ANALYSIS

Your final case analysis must be posted on Canvas no later than Sunday, July 2nd, at 11:59 p.m. Students are required to complete a written case analysis focusing on how to engage, assess, intervene, and evaluate practice with an individual, a family, a group, an organization, or a community. This is a common assignment for students in all sections of HBSE to assess how well they master competencies 6.1, 7.2, 8.2, and 9.2 of the Council on Social Work Education’s Education Policy and Accreditation Process (EPAS). Results are used to evaluate the School’s curriculum as part of its process to maintain CSWE accreditation. This assignment assesses the following competencies:

CSWE Competency

- 6.1 Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies.
- 7.2 Apply knowledge of human behavior and the social environment, person-in-environment, and other interdisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies.

8.2 Apply knowledge of human behavior and the social environment, person-in- environment, and other interdisciplinary theoretical frameworks in interventions with clients and constituencies.

9.2 Apply knowledge of human behavior and the social environment, person in environment, and other interdisciplinary theoretical frameworks in evaluating practice with individuals, families, and groups

The objectives of this assignment are:

- To apply critical thinking to the engagement, problem identification, assessment, planning, intervention, and evaluation for a case situation.
- To practice using evidence-based resources to guide case interventions.
- To apply a theoretical framework(s) to a case and presenting problem.
- To gain experience writing a formal case analysis using APA format.

Your case analysis should be written using one of the following cases in the Hutchison text: 2.1 (Intergenerational stresses in the McKinley family), 9.1 (Leticia Renteria), 10.3 (The Suarez family after September 11, 2001), 11.3 (Sarah's teen dad), 12.2 (Terri's terrible temper), 13.3 (Manuel Vega), 14.1 (David's coming out process), 16.2 (Margaret Davis stays at home). Students will select cases during the first week of the course. Your analysis should be approximately 8 full double-spaced, 12-point font, pages in length (excluding cover and reference pages) and must adhere to APA 7th edition guidelines. This analysis should be supported with a minimum of 5 peer-reviewed, refereed journal articles published within the past ten years (unless you are citing the original author of a theory or an important historic citation). Do not use any websites as one of your references unless the reference is a peer reviewed, refereed journal article unless you are using the website to provide current demographic information.

- **Relevant Background Information:**
 - Briefly summarize the case, giving identifying information about the targeted client/client system, which can be an individual, family, group, organization, or community and why you chose that system as the client (use third person; cite text).
 - Include information about the client/client system (for example, if an individual, age, race/ethnicity, gender, sexual orientation/gender identity, religion if relevant, current living situation, presenting problem.)
 - Include detailed, relevant facts related only to the targeted client system you chose. This information should be grounded in the available case information and not based on unwritten assumptions, stereotypes, or biased opinions. The information should help explain the behavior of the client system in its total environment.
 - Suggested length ½-1 page
- **Problem Statement:**
 - Give a specific and concisely written formulation of the problem to guide your analysis and problem-solving.
 - Suggested length: One short paragraph
- **Engagement of the Client in the Case:**

- Briefly describe how the client (or client system) is being engaged or not being engaged in addressing the problem the client (or client system) is facing. It is important to engage the client and develop a relationship so the client will be willing to seek and receive help.
- Be sure to describe the engagement strategies such as empathy, reflection, and interpersonal skills a social worker could use with the targeted client system in the case. Remember that the targeted system can be an individual, family, group, organization, or community.
- Use third person throughout your paper. Here, for example, you could say “The social worker could engage the client by....”, not “I will.....”.
- (Suggested length ½ page)
- **Assessment of the Case:**
 - After reviewing the background information, determine the major factors that are significant (for example, type of problem identified, age, race/ethnicity, gender identity, sexual orientation, ability/disability, citizenship status, access to economic and other resources). Then, using the UT library or Google scholar search systems, identify at least 3 peer reviewed journal articles published within the last ten years that will help with your assessment of this case (understanding what you think is going on and why). These articles can then serve as the major source of supportive information in this section of your case analysis.
 - Organize the information data from the case study and describe a single problem that the targeted client system is facing in the case. (1 paragraph).
 - Identify and discuss the biopsychosocial and cultural factors that contributed to this problem. Summarize the various environmental contextual factors that relate to the case (e.g., individual, family, peers, school/employment, neighborhood, community; biological, cultural, economic, political/legal, ethical). Do not reiterate the facts of the case, but describe the contextual issues surrounding the case objectively. (You can incorporate information from your literature review/journal articles here.)
 - Choose one theoretical framework covered in this course that guided your assessment of the problem of the targeted client system. Explain the theory/framework(s) and then show how it is relevant to the problems and core issues of this case. Be sure you include a source; you can incorporate information from your literature review/journal articles here as well.
 - Suggested length 3 ½ pages; assessment and contextual discussion should be about 2-2 1/2 pages; theory discussion should be about 1 page
- **Intervention Strategies:**
 - Based on your assessment of the case, develop intervention goals and select appropriate intervention strategies that you and the client/client system would collaborate on to address the problem(s)/achieve the goals you have identified.
 - Describe how the intervention strategies will be implemented. Be sure the strategies relate to the identified problem and are consistent with your assessment of the case. Strategies should be distinct and feasible/realistic. Note briefly the advantages/ disadvantages of each strategy selected.
 - Be sure to use a theoretical framework to guide the intervention selection and implementation. One theoretical framework can be used for all intervention strategies. (It can be either the same framework used in your assessment section or a different framework.)
 - Incorporate at least 3 different references from refereed journal articles supporting the intervention(s) chosen to address the problem(s).
 - Suggested length 2-3 pages
- **Evaluation of Practice:**

- Select and describe an appropriate method to evaluate the interventions selected. In other words, explain how you would know if the intervention(s) you chose was/were effective in addressing the problem.
- Be sure to use your selected theoretical framework to guide the evaluation of the intervention selected and implemented.
- Suggested length ½ page
- **Reference Page**
 - Cite all sources used in this installment following APA format.
- **Grading of the case analysis will be based on the following:**
 - Introduction (2points)
 - Engagement of the client 5 points)
 - Assessment of the case (5points)
 - Described single problem targeted client system is facing in the case (1 paragraph) (5 points)
 - Identified and discussed biopsychosocial and cultural factors that have contributed to the problem; used at least 3 appropriate peer reviewed journal articles published no earlier than 2000 to provide supportive documentation of assessment of the problem described and associated factors that have contributed to the problem (5 points)
 - Discussed one appropriate theoretical framework that guided assessment of targeted client system with appropriate citation (5 points)
 - Writing quality and style, including appropriate use of references (8 points)
